The article shows the problems of transformation of the religious values of the population of Kabardino-Balkaria in the modern period. It is revealed, that during the last years there has been a significant transformation of religious values in the population of Republic. It is shown that the number of believers in Kabardino-Balkaria is increasing, which is typical for other regions of the Russian Federation. It is concluded that religious tolerance and religious intolerance among the population of Kabardino-Balkaria has increased over the past 20 years.

Keywords: Kabardino-Balkaria, transformation of religious values, Islam, Christianity, tolerance, religious intolerance.
